

COFFEE PERCOLATOR

OPERATION INSTRUCTIONS

Please carefully read this important information before use:

- Please fill percolator only with cold water before plugging in to brew.
- Use only regular ground coffee.
- Only use basket provided in percolator, no additional filters are needed.
- Use caution when coffee or tea is finished percolating as contents will be extremely hot.

INSTRUCTIONS FOR PROPER USE:

1. Remove plastic wrapping and uncoil electrical plug, but do not plug in to outlet.
2. Remove lid and take out filter basket and stem. You do not need to use any additional filters, **use only basket provided.**
3. Fill to desired level with **cold water only.**
4. Return filter basket and stem to proper place in percolator.
5. Put **regular ground coffee** in filter basket. Instructions on how much coffee to use will differ based on the brand you are using, refer to the coffee container for the proper measurements.
6. Replace lid and ensure that it is locked properly in place.
7. Plug cord into electrical outlet and turn on switch.
8. Coffee will take approximately 30-40 minutes to percolate.
